SUMMARY

BS Information Technology graduate (2026) with 3 years of hands-on experience building full-stack web and mobile applications using JavaScript, TypeScript, React, Node.js, PostgreSQL, and MongoDB. Experienced in developing rolebased platforms with real-time features, third-party API integrations, and cloud-based image and file handling. Seeking a Software Engineer role to apply practical development skills and contribute to real-world projects within a professional team.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML, CSS, SQL

Frontend: React.js, Next.js, React Native (Expo), Vite, Tailwind CSS, Bootstrap, shadcn/ui

Backend: Node.js, Express.js, Prisma ORM, Socket.io, JWT Authentication, Passport.js (OAuth)

Databases: PostgreSQL, MongoDB, MySQL

Tools & Platforms: Git, GitHub, Postman, VS Code, Cloudinary, Tesseract.js OCR

WORK EXPERIENCE

Junior Web Developer, Internship

Feb 2026 - May 2026

- Developed responsive web pages using HTML, CSS, and JavaScript
- Integrated third-party APIs to enhance website functionality and user experience
- Designed page layouts and navigation frameworks that met usability requirements

PROJECTS

E-Farmers' Hub — MERN Stack E-commerce Platform

- Built a full-stack e-commerce platform connecting farmers with buyers for digital transactions and market access
- Implemented multi-image product uploads using Cloudinary and GCash/Maya receipt validation with Tesseract.js OCR
- Developed timezone-aware (PHT) date handling, product unit types, and payout management with SMS notifications
- Built a companion React Native (Expo) Rider App for delivery management, distributed via GitHub Releases

PC Out — PERN Stack PC Parts Marketplace

- Developed a multi-role marketplace (admin, seller, buyer) using PostgreSQL (Neon), Prisma ORM, and React with TypeScript
- Implemented JWT authentication with httpOnly cookies and Google OAuth via Passport.js
- Built a seller dashboard with real-time analytics using Recharts and role-based route protection using Zustand
- Integrated Cloudinary for image uploads and Socket.io for real-time features

Francisco Osorio SHS Enrollment System — MERN Stack

- Built a multi-step enrollment system with bulk Excel import for sections and subjects
- Implemented QR code generation, PDF downloads, and real-time updates via Socket.io
- Designed semester/school-year switching and access-code-based staff registration

EDUCATION

Bachelor of Science in Information Technology

2022 - 2026

Cavite State University, Trece Martires City Campus
